The property has a huge garage and a building site!

Build a cabin in a Giant Sequoia grove! This pair of very buildable lots had a cabin on one lot but it was lost in the Castle Fire. However, the new steel garage building on the adjacent lot was spared. In addition, the property has a paved driveway, retaining walls, and the septic/leach system may still be functional (buyer to confirm). There are Giant Sequoias on the lot, though they were impacted by the fire (buyer to confirm health/viability). This property is one of the very few available lots in Sequoia Crest, a primarily vacation home subdivision located in a private Giant Sequoia grove within the Giant Sequoia National Monument. Once the property recovers from the fire, it could be a beautiful setting for a vacation cabin or full-time home. Call today while this unique property is still available!
